ELITE DOORBELL CAMERA - RING™, 1080P, WIRELESS

Sleek flush mount design with power over the Ethernet

See who's there, from anywhere. Ring™ Video Doorbell Elite is a professional-grade solution with power over Ethernet, a flush mount and a sleek design providing a new level of security, by notifying you when someone is on your property and letting you see and speak with anyone at your front door. With Ring's sharp and vivid 1080p HD video, smart motion detection, and cloud recording, it's like you're home even when you're not.

ELITE DOORBELL CAMERA - RING™, 1080P, WIRELESS

Ring Elite lets you monitor your home, answer the door and greet guests straight from your phone. With instant alerts, HD video and two-way talk, you can see, hear and speak to visitors from anywhere.

Create and customize your own motion zones, so you can focus on the most important areas of your yard. When motion is detected, you'll get an instant alert on your phone, tablet and PC.

Power over Ethernet gives you the most reliable connection in smart home security, allowing you to stay online, maintain power, and get the highest quality HD video and audio right at your fingertips.
