ALIBI® Cloud VS

CAMERA-TO-CLOUD VIDEO SURVEILLANCE

Centralized Management for Multi-Site

A simple, single management dashboard lets you easily manage all cameras, schedules and users across multiple sites.

Ideal for: Campuses • Multi-location Franchises • Distribution Warehouses • Municipalities/City Facilities • Centralized Security/LP Functions • Annex Buildings

Benefits for Multi-user Deployments

- **Centralized Management** Access all cameras across a single- or multi-site installation via a single dashboard.
- **Global User Management** Easily add or remove users from a single interface, customizing permissions based on individual roles and responsibilities.
- **Simplified Maintenance** Alibi Cloud VS eliminates the need to service and maintain on-premise recording device(s) and/or storage server(s) across multiple locations.
- **Centralized Storage** All video is streamed and stored in a T4 cloud data center, reducing the need to manage access and security of your data across multiple locations.

Powerful and Secure

- Leverage unlimited computing power, bandwidth, and storage—as needed.
- All video stored in T4 data centers—featuring end-to-end data encryption and 3x data redundancy.
- Continuous security patches and automatically applied firmware updates keep customer data ultra-secure.

Lower Cost of Ownership

Alibi Cloud VS reduces the up-front investment in a local recording and/or storage device, and eliminates the installation and ongoing maintenance expenses required by an on-premise security solution.

See what the cloud can do for your business.
