

Desktop & Mobile Access

Alibi Cloud VS solutions allow you to access, view and manage live or recorded video footage via web browser or mobile device. Centrally manage an unlimited number of cameras, for a single or multi-site installation, via a single, user friendly interface.

Key features include:

-  **Manage and view** any number of cameras, from a single site or multi-location installation, via a single interface
-  **Watch live streaming video** of up to 25 cameras at one time
-  **View recorded footage** stored on cyber-secure, cloud-based servers
-  **Set instant alerts and push notifications** via SMS and/or email—when your camera detects objects, motion, sound or heat
-  **Manage all system and camera settings**, including: FOV, focus and zoom (when applicable)
-  **Quickly export video footage** to your computer, and video snapshots to your smart device
-  **Enable concurrent access** to an unlimited number of users, with unique permissions
