

## 3X SERIES 4-CHANNEL NVR

NVR delivers plug-and-play IP recording without the complexity

### Key Features:

- + Supports up to 8.0MP recording resolution
- + Integrated 4-port PoE network switch with 802.3af/at support
- + Built-in PoE switch automatically detects and displays Alibi IP cameras
- + Supports H.265+, H.265, H.264+ and H.264 video compression
- + Linux embedded operating system

Enjoy the convenience of an integrated 4-port Power over Ethernet network switch (802.3af and 802.3at) that powers the IP network cameras directly through the network cable—eliminating the need to purchase a separate network switch.

This 4-Channel NVR supports compatible IP network cameras (up to 8.0MP resolution) for seamless plug-and-play installation—just plug the compatible cameras into the integrated network switch, and the cameras are automatically detected, displayed, and configured to the NVR.

The remote configurable network recorder features a bit rate of 40Mbps incoming and 80Mbps outgoing at up to 60fps per channel. It also supports H.265, H.264 and H.264 OVC video compression to maximize recording time and hard drive space, and multiple selectable recording modes (VCA, alarm, continuous, motion detection and event).

With a recording resolution of 8MP, this network recorder runs on a Linux embedded operating system and has one hard drive bay with a total storage capacity of 6TB.

### What's Included:

- + (1) Alibi 4-Channel NVR
- + (1) USB mouse
- + (1) 48 Vdc power supply
- + (1) 6' HDMI cable
- + (1) 6' CAT5e patch cable
- + (1) Quick Start Guide

# SPECIFICATIONS

|                           |                                                                           |
|---------------------------|---------------------------------------------------------------------------|
| Audio                     | Yes (Camera Dependent)                                                    |
| Audio Streaming           | Two-Way                                                                   |
| Ethernet Interface        | RJ-45                                                                     |
| Ethernet Ports            | 5                                                                         |
| Ethernet Speed            | 10/100/1000                                                               |
| Remote Configuration      | Yes                                                                       |
| Remote Viewable           | Yes                                                                       |
| Channels                  | 4                                                                         |
| Bit Rate                  | 40 Mbps incoming, 80 Mbps outgoing                                        |
| Compression Type          | H.265+, H.265, H.264+, H.264                                              |
| Email Notification        | Yes                                                                       |
| Event Log                 | Yes                                                                       |
| Event Notification        | Yes                                                                       |
| Search Mode               | Normal, Event, Tag, Smart, Sub-periods                                    |
| Event Search              | Yes                                                                       |
| Recording Resolution      | Up to 8 Megapixel                                                         |
| Max Storage Capacity (TB) | 6                                                                         |
| Frame Rate (fps)          | Up to 60fps per channel                                                   |
| Max Frame Rate (fps)      | 240                                                                       |
| Motion Detection          | Camera Dependent                                                          |
| Pre/Post Alarm Recording  | Yes                                                                       |
| Privacy Video Block       | Yes                                                                       |
| Recording Mode            | Schedule, Continuous, Motion Detection and Event                          |
| Video Analytics Capable   | Yes                                                                       |
| Video Offload             | MP4                                                                       |
| Video Streaming           | Dual                                                                      |
| Dimensions                | 1.8" H x 12.4" W x 9.1" D                                                 |
| Certification             | CE, FCC, RoHS                                                             |
| Construction              | Aluminum (chassis), Plastic (faceplate)                                   |
| Hard Drive Type           | SATA                                                                      |
| Number of Drive Bays      | 1                                                                         |
| Operating Humidity        | 10% - 90%                                                                 |
| Operating Temperature (F) | 14° ~ 131°                                                                |
| Product Color             | Black                                                                     |
| Remote Control            | Yes                                                                       |
| Weight (lb)               | 2.2                                                                       |
| Power Supply Included     | Yes                                                                       |
| PoE                       | (802.3af / 802.3at)                                                       |
| Power (w)                 | 10w Consumption (without hard drive, PoE not used),<br>40W Max PoE output |
| Browser Support           | Internet Explorer, Safari                                                 |
| OS (Client)               | Windows                                                                   |
| OS Compatibility          | Embedded Linux                                                            |
| Mobile App                | iOS & Android                                                             |
| Inputs                    | (1) RCA audio                                                             |
| Outputs                   | (1) RCA, (1) VGA, (1) HDMI, (2) USB 2.0                                   |
