2MP HD 65' IR OUTDOOR DOME CAMERA

HD camera delivers zero latency
HD video over coax cable

Get sharp and detailed 1080p resolution video with the 2.0 MP High-Performance CMOS in this Alibi 2.0 Megapixel HD 65' IR dome security camera.

Smart IR technology allows this camera to reduce overexposure of the IR LEDs at the center of the image and capture images up to 65' in the dark without washing out the subject at closer ranges. This camera also has features such as True Day/Night and 120dB Wide Dynamic Range (WDR) for effective round-the-clock surveillance.

True Day/Night round out the features that make this camera an ideal 24/7 surveillance.

Despite its size, the camera's 2.8 mm wide angle lens covers a large area with its 103.5° FOV (Field of View). This camera provides high definition analog output signal which can be sent over existing coaxial cable, eliminating the need to run new cables for high definition video. You can also upgrade your cameras with minimal effort with HD's zero latency HD video and long-distance transmission over twisted-pair and coax cable or similar.

The camera is rated for outdoor use, with an operating temperature of -40° to 140°F.
