802.3af Compatible 10/100Mbps PoE Injector

100/240VAC support and supplies 48VDC to all units

The PI100 802.3af Compatible 10/100Mbps Power Over Ethernet (PoE) Injector works with any and all access points that are also 802.3af PoE Compatible. The PI100 is self contained with both a Power Over Ethernet PoE injector adapter and a power supply all in one, this make it much easier to deal with when keeping a clean cable room. The PI100 also has 100/240VAC support and supplies 48VDC to all units.

The PI100 PoE injector adapter puts power over pairs 4, 5, 7 and 8. This unit can also be used with Cisco PoE equipment using an altered pin out on the RJ-45 Cable. The PI100 also provides auto-recover, over-voltage and short circuit protection.

KEY FEATURES

» Provides DC 48V power to all units

» 10/100Mbps, Cat5/Cat6

» Over-voltage protective installation

» Short-circuit protective installation

» Efficiency over 75%

» Cispr 22'B', Vcci'B', Fcc'B' compliance

PRODUCT SPECIFICATIONS

Networking

802.3af	Yes
Ethernet	Yes
Ethernet Speed	10/100

Physical Characteristics

Operating Temperature (F)	14° ~ 131°
Weight (lb)	0.31

Power Requirements

PoE	Yes
Volts AC	90 ~ 264
Volts DC Out	48
